## "DOUBLE SUBSCRIPTION" LOAN CAMPAIGN SLOGAN EVENTS ENHANCE DUTY

Subscriptions Must Total Now  
\$500,000,000 a Day to  
Reach Minimum Set.

Big Oversubscription Would Be  
The Best Thing That Could  
Happen, President Wilson  
Declares.

By Associated Press Dispatch.

Washington, October 11.—With the declaration of President Wilson that recent events have enhanced, not lessened the importance of loan, committees conducting the campaign appealed to the American public not only to buy bonds but to buy more bonds. "Double your subscription" became a slogan in many communities.

Subscriptions to the loan today the total had reached the one-third mark. Total subscriptions as reported early today were slightly more than two billion dollars which means pledges must average at least \$500,000,000 each day until the close of the campaign October 19th.

Over subscription of the loan is a matter of world importance at this time, President Wilson declared last night.

"The best thing that could happen," would be that the loan should not only be fully subscribed but very greatly over subscribed," declared President Wilson.

Paris, Havas Agency, October 10.—President Wilson's reply to the German peace note was approved today by the committee on foreign affairs

GRIP OF THE HUNS IN NORTHERN FRANCE HAS BEEN DEFINITELY AND FINALLY BROKEN AND THE WORK OF HERDING THEM BACK TO THEIR BORDERS IS PROCEEDING AT AN INCREASINGLY RAPID RATE.

EVER WIDENING BRITISH AND AMERICAN WEDGE NOW RESTS ITS OUTER TIP ON LE CATEAU ONLY TWENTY FIVE MILES FROM BORDER

Last Night's Developments Along the Ever Increasing Battle Front Serve to Accentuate the Retreat of the Germans. Americans with French Applying Heavy Pressure in Champagne Sector.

ANGLO-BELGIAN FORCES HELD IN LEASH TO CLOSE THE POCKET ON DOUAI AND LILLE

(By The War Editor of The Associated Press)

The grip of the Germans on Northern France has been lessened and the process of herding them back to their borders is proceeding at an increasingly rapid pace under the Allied lash. Already since the beginning of the July offensive which initiated the loosening process, the allies have pushed the enemy back a maximum of 45 miles from the Ancre near Albert to the tip of the present Anglo-American wedge at LeCateau.

A scant 25 miles more will bring them back to the Belgian frontier. But long before that point is reached the pressure if continued at the present rate will have resulted in the cleaning of the enemy from virtually all French and most of the Belgian soil.

The Germans indeed are carrying out a general retreat but it is a retreat under pressure and although being skilfully conducted its bound to cost them heavily.

Gen. Ludendorff has been desirous of withdrawing to a shorter line where he could reorganize his forces but the unrelenting pressure applied all along front has made it impossible for him to detach himself for such an operation. He cannot break contact with his adversaries as he would like to do consequently is obliged to fall back slowly, fighting hard and losing heavily in his backward course.

Last night's developments and those of today along the wide battle front only served to accentuate the extent of the German retreat and the acceleration of its pace. The official reports reveal the British and Americans co-operating with them, are still widening the great wedge in the German line southeast of Cambrai, a process in which the French to the south are aiding.

Gen. Petain's troops have pushed up the river Oise to a point almost as far north as Guise, where they join up with the British and Americans who are rapidly nearing the important railroad junction of Wassigny, south and east of LeCateau.

The Americans are with the French in applying the pressure in the Champagne and the American first army in its drive in the Argonne area has joined hands with Gen. Petain's troops at Grandpre. Further east the strong line on which the Germans stood to resist the Americans west of the Meuse is crumbling under the blows of General Pershing's troops and further advances by the American forces are looked for here.

On the far northern end of the front the Anglo-Belgian forces are being held in leash to thrust again for a closing of the pocket in which Douai now is enclosed together with the great manufacturing city of Lille as soon as the northeastern thrusts of the British First, Third and Fourth Armies have progressed to the desired point. The Germans in the Lens area however are not waiting for this trap to be sprung and are continuing their withdrawal from that part of the pocket which is the one most immediately threatened. Battle front reports indicate an expectancy there that a move by the Germans to evacuate is imminent.

## 1,900,000 MARK PASSED BY U. S. FORCES OVERSEAS MARCH APPEALS FOR LOAN

Chief of Staff Announces Important Troop Positions in Battle Zones.

Indicates How Our Boys Are "Cleaning Up" on the Huns.

By Associated Press Dispatch.

Washington, October 11.—American troops sent overseas have passed 1,900,000 mark Gen. March announced today coupling his statement with an urgent appeal to the country to support the Fourth Liberty Loan.

Taking up the battle situation Gen. March said with the capture of LeCateau the allied forces are within 14 miles of the railroad junction of Aulnoye, which is a vital strategic point for the enemy. The Liege-Nauvange railway and the lateral road through Sedan at which the American army is striking on the Meuse, meet each other at Aulnoye and these two lines are the main arteries for German supplies and troop movements in France.

Gen. March announced the American divisions which cleaned up the St. Michael salient in the night which prepared the way for the present operation north of Verdun. Pointing from left to right on the map he said the divisions were in line as follows: Fourth, regulars; 26th New England N. G.; First, Regulars; 42, Rainbow; 89 Kansas, Mo. S. D. Neb. Col. Mexico and Arizona national Army; 2nd Regular.

This is the first information made public as to the constitution of the army with which Gen. Pershing achieved

a brilliant victory in his first wholly American effort.

In locating various divisions in response to questions Gen. March said the 37th Ohio National Guards is on the line in the Vosges and the 42nd Rainbow is in the Woivre.

## EMPEROR OPPOSED PRINCE MAX PLAN

(By Associated Press Cable)

London, October 11.—Chancellor Maximilian's peace proposal was made in direct opposition to the views of Emperor William, according to a report reaching London by a neutral who left Germany a few days ago. ## CLOSING ORDER WILL REMAIN IN EFFECT NEXT WEEK

**Number of New Cases of Influenza Dwindling but Precautions Must Continue Many Days, Declare Health Authorities, and No Public Meetings Will Be Permitted.**

While the number of new influenza cases are dwindling in this city and county, there will be no relaxation in the rigid quarantine, or closing order established in the city, but in addition to the closing orders in this city and part of the county, there will be no public meetings in the county as result of the State Board of Health order, until further notice. This means that virtually everything will remain closed for many days to come.

The number of deaths in the city and county have been very light considering the widespread of the disease, and it is estimated that only eight or ten cases have terminated fatally—a much smaller percentage than in many communities of the state. This number does not include the cases of death at Camp Sherman, where seven or eight local men have succumbed to the disease.

In this city the schools, churches, lodges, pool rooms, clubs, and all meeting places will probably remain closed throughout next week as a precaution against unnecessary spread of the epidemic.

Hundreds of persons who have had the disease have recovered sufficiently to be about, but scores of them have been left very weak as result of the disease. Hundreds of others had the disease in such a mild form that they speedily recovered from its effects.

Health Officer Byron was in Columbus Thursday, summoned by the state health authorities, and a great many health officers were present for the conference held at that time, when it was decided to issue a state-wide closing order.

At the present time there are probably at least 1,000 cases of the disease in Fayette county.

**200,000 Cases Reported.**  
Washington, Oct. 11.—Nearly 200,000 cases of Spanish influenza in army camps have been reported to date.

## CAPTAIN PISCEKY Recruiting Czechs Here For Service In France.

## HOME SERVICE DEPT. AIDS SICK SOLDIERS

Three local boys who have been in service in the Auto Training department of the Cincinnati University since the middle of August, are quite ill with the influenza at the General Hospital in Cincinnati—Carey Stolzenburg, Harvey Porter and Charles Albert Schuler.

Mr. Charles Porter, of the Prairie pike, went to Cincinnati the first of the week hoping to see his son, but was not permitted to.

Thursday Miss Mary Robinson, head of the Red Cross Home Service department, telephoned to the matron of the Hospital asking for permission for parents to visit their sons, but was answered that such permission was only given when the sons were in a dangerous condition and these boys, while seriously ill, are not considered dangerously so.

The boy's families had not heard from them for a week and were much relieved by the answer to Miss Robinson's phone.

Young Schuler is worse than the other two and Miss Robinson will keep in touch with the hospital and be informed if he grows worse.

The entire Schuler family in this city is ill and has not been able to secure help.

Miss Robinson has induced another soldier's mother to go into the stricken home and lend assistance, which is vitally necessary if they recover.

## ATTACKED BY DOG ASKS HEAVY DAMAGES

Grace Taylor, of Greenfield, has filed action for \$3,000 damages against Paul Fairley, on the grounds that the defendant harbored a vicious dog which attacked and severely wounded her some weeks ago.

The plaintiff claims that defendant knew the dog was vicious, and that he had not taken proper precaution to prevent the animal attacking those who were passing by.

As the state law makes the owner of a dog responsible for any damage done by such dog, the outcome of the present case will be watched with considerable interest.

## GIGANTIC BOMBS ARE DROPPED BY YANKEE AIRMEN

(Associated Press Correspondence)  
Behind the American Lines in France, October 2.—Bombs of an incredible size are now carried by American aircraft, and some idea of their destructive capacity may be gained from the fact that they cannot be dropped at a lower altitude than 8,000 feet, so greatly is the air disturbed the explosion.

An amusing incident occurred when the first of these was dropped on enemy territory, which is much harried by American bombers and consequently bristles with searchlights and anti-aircraft batteries. So terrific was the explosion that every searchlight went out instantly, and the airmen were deprived of the landmarks on which he had counted to find his way home.

Americans in this squadron have remarkable success. In two weeks they accounted for twenty-six enemy machines, seventeen of which were crashed, and one balloon. All are imbued with the idea of maintaining the offensive under all circumstances.

Recently two of them, finding themselves cut off by twenty of the enemy while returning to camp, refused to seek safety in flight. Instead, they swept up at the German machines, which were all above them, and so rattled the enemy by their unexpected daring that they actually brought down four of his machines and, though not undamaged themselves, were able to land behind our lines.

A successful attack was made by members of this squadron not long ago upon a troublesome enemy aerodrome which long had evaded discovery, so cleverly was it concealed in the grounds of a chateau. The chateau served as the headquarters of the officers of the German squadron, and the hangars were hidden in the edge of the woods about the house. The American squadron was acting as escort to the bombers charged with the destruction of the aerodrome.

In a field about half a dozen enemy airplanes were discovered, most of them with their propellers running and preparing for flight. The American machines swooped down within a hundred feet of the ground and circled about the field, sweeping it with the fire from their machine-guns until all of the German machines were blazing and the men attending them either shot or driven into a nearby wood.

Meantime bombs had been dropped on all the hangars and one on the chateau itself, which burnt like a torch and lighted the attackers on their return journey.

# Not What You Buy But What You Can Buy

Remember that your patriotism in buying **LIBERTY BONDS** is not going to be judged by the amount you actually buy, but by the amount you are able to buy.

If you buy a small Bond and hide away the money with which you could easily buy a large one, you are just as much a slacker as the man who buys none at all.

In some ways you are worse because you are adding the element of hypocrisy and getting the credit of being a Liberty Bond buyer when you have only bought a very small fraction of what you could buy.

Don't be a slacker. Don't be a hypocrite. Size up your resources carefully and then buy **LIBERTY BONDS** to the fullest extent of your ability.

And see that your friends and neighbors do the same.

**THOUSANDS VIEW TROPHIES TAKEN FROM GERMANS**

**Deadly Implements of the Huns Attract Widespread Interest and Arouse Desire for Liberty Bonds and Purchases Exceed \$50,000—Many Are Unable to Inspect The Trophies.**

Between 6,000 and 10,000 persons flocked to the government trophy train in this city Friday morning, and because of the great number who appeared, many were unable to inspect the trophies at close range.

And while the big crowd was assembled, the work of selling Liberty Loan Bonds was carried forward by a corps of workmen from this county, and by the workers aboard the train, so that more than \$50,000 worth of bonds were disposed of in the two hours the train was here.

Accompanying the train, in addition to several prominent speakers, were a number of French, American, Scotch and British soldiers, who had been wounded in action and most of them had been cited for bravery, but regardless of their injuries, which have shattered their health for life, the men were smiling when they appeared before the big crowd, although their faces were lined with the hardships undergone.

One Frenchman, who had his breast covered with decorations won for unusual bravery, had not only seen a vast amount of bitter fighting, but had been taken prisoner by the Germans, and unable to withstand the brutal treatment of the Hun, slew his captor and after great hardship escaped, eventually reaching the French lines. Another Frenchman had been gassed and a German sword had been run through his body.

Two Americans, one a Marine, who were seriously wounded at Chateau-Thierry, were with the train. An American, who saw much fighting with the Scots, and who had been shockingly wounded, one leg being gone, one eye out, part of his skull missing, and otherwise injured, attracted his share of attention and was given hearty applause.

The train was composed of one Pullman, two baggage coaches and two gondolas, and the trophies carried were so numerous and so murderous in appearance that they very forebodingly brought home to local citizens the stern realities of the war, and accelerated the buying of Liberty Bonds.

The trophies include a German airplane, field guns, trench mortars, mine throwers, aerial bombs, huge shells, machine guns, gas shells, flame throwers, rifles, armor, helmets, wearing apparel photos showing German atrocities and destruction as well as a host of other interesting articles.

One of the huge Hun shells weighing 2400 pounds, a bursted Hun field gun, and one of the famous French 75's were included among the more interesting exhibits.

While it was expected that the train would contain a tank, the train bearing this interesting piece of war machinery is making a tour elsewhere, so that the Hun airplane was carried instead. No one was disappointed with the exhibits.

The speakers accompanying the train included Judge Woodmansee of Cincinnati. Attorney C. A. Reid introduced the speakers. Judge Joseph Hidy was chairman of the Bond salesmen who made such a splendid record in the sale of bonds, the total sales being \$50,500.

**LOCAL MEN CAPTURE 26 ALLIED SOLDIERS**

While driving up street late Thursday night, Ed Fite and Henry Brownell were accosted by the 26 soldiers and sailors who had accompanied the trophy train to this city from Wilmington, and the group carrying a huge red lantern, laughingly inquired if they had purchased their Liberty Bonds. The two men were equal to the kidding started by the boys, and promptly informed them that they were under arrest, and must follow them.

This so pleased the soldiers and sailors that they "fell in" and after Mr. Fite had locked his Ford and placed the key in his pocket, he and Mr. Brownell proceeded to lead the group into a restaurant where they were liberally fed, after which they were marched to the Fite grocery, opening a barrel of fresh cider and inviting them to get busy with the cider, candy, apples and other fruit in the store, and in fact to help themselves to anything they desired.

For two hours the group enjoyed themselves to the limit, seated about the store on goods boxes feasting, re-

lating experiences of the war that are seldom read in print. Before leaving the crowd of jolly soldiers and sailors, all of whom had been wounded in action, voted their hosts royal entertainers.

**DEATH SUMMONS AGED RESIDENT**

Mrs. Mary Nelson, wife of Mr. R. J. Nelson, died at the home of her son, Mr. Jacob Nelson, of Good Hope at 8:15 Friday morning, aged 79 years. She had been ill for two weeks from pneumonia, and during those sad days of the illness and death of her grand daughter, Mrs. Harry Reynolds, the family watched with keenest anxiety at the bedside of the mother, bowed down by the double grief.

The Nelsons are old and esteemed residents of the county and have made their home in Good Hope since 1885. "Mother Nelson" as she was often called, was one of those good, helpful women who are of value in the community and her death is much regretted by neighbors and friends as well as a large family connection.

Nine children mourn the loss of a devoted mother—Mrs. Clara Harker, of Springfield; John Nelson, of Manara, Charles Nelson, Mrs. Jessie Reveal, Mrs. Kate Follis, Mrs. Bell Arbogast, Mrs. Elizabeth Dixon, of this city, Mrs. Frances Clouser, of Greenfield and Jacob Nelson, of Good Hope.

No funeral arrangements have yet been made.

**BIG LOAN DRIVE BEGINS SATURDAY BE READY TO ACT**

All arrangements have been completed for the beginning of the Fourth Liberty Loan "clean-up" drive which will be started in all parts of Fayette county bright and early Saturday morning, and which is expected to miss a single person who is able to buy bonds from \$50 and upwards.

Uncle Sam wants 3,000 subscribers—at the very least, in Fayette county, and to get the required number no man, woman or child who can buy bonds can shirk the duty of buying and expect someone else to do it.

The belief is growing that while it is a genuine honor to be a buyer of the bonds at the present time, that in the not distant future it is going to be a double honor to hold the bonds, and that persons who do not hold bonds, when able to do so, will be regarded just as much of a slacker as the man who attempts to dodge the draft, or who attempts to dodge the War Chest and kindred plans to aid in winning the war.

To absorb the huge quota for this county is going to mean that every person must do his or her duty, and the government bond workers want to know just as much the names of those who fail to buy, as those who do buy.

Every citizen of Fayette county is urged to be ready when the workers appear to order a bond of just as large a denomination as they can buy.

## Breezy! Both Days and Styles in Men's Clothes

Breezy days are coming, but you will find their match in the clothing we have to offer you now. Maybe you had better buy Liberty Bonds instead of clothes; you know better than we do what your resources are. If you can't afford both, buy bonds. But there are not many men who can afford to be badly dressed. Next to Liberty Bonds you can't make a better investment than in a Quality Suit of Clothes or Overcoat.

There are two kinds of clothes—those that save and those that waste. If you buy wasteful clothes you are depriving the government of needed materials and labor. If you want to save insist on clothes of good quality; all wool materials; reliable tailoring. Our duty is to see that you get good clothes, and we know we can meet our obligations best by offering Hart Schaffner & Marx Clothes. They economize for you.

Right in line with our policy of fullest value for your money we offer

The labels will be prepared to serve as address labels for the parcels. The label furnished each soldier or other member of the American Expeditionary Forces will be sent by him to the person who is to mail the Christmas parcel. No Christmas parcel for members of the Expeditionary Forces in Europe will be accepted for transmission without such label.

2. All Christmas parcels must be of standard size, 3 inches by 4 inches by 9 inches and shall not exceed 3 pounds in weight, for which purpose cartons of the size prescribed will be distributed through the local Red Cross Chapters throughout the country. No person will be furnished a carton except upon presentation of a "Christmas Parcel Label" received from abroad.

3. The parcels must contain no prohibited or unavailable articles. Perishable food products are not permitted.

4. After the cartons have been filled by the persons who receive them, they shall be returned to a Red Cross receiving station where inspectors appointed by the Red Cross will carefully examine each parcel and supervise its wrapping and the affixing of the "Christmas Parcel Label" and the necessary postage stamps, the latter to be furnished by the sender of the parcel. When the parcels have thus been packed and wrapped and otherwise prepared for transmission, the Red Cross will affix to each parcel a certificate in the form of a seal showing that the parcel has been inspected and contains no prohibited or unavailable matter. Such certificates will be accepted by the Postal Service and Army authorities as evidence that the parcels conform to the conditions prescribed and obviate the necessity of subsequent examination. The parcels must be left at the Red Cross receiving stations which will deposit them in the mails for dispatch.

5. Christmas parcels must bear

the name and address of the sender and will be addressed substantially as follows:

"Christmas Box Department, Port of Embarkation, Hoboken, New Jersey.

7. In order to assure the arrival of Christmas parcels abroad and the delivery to the addressees by Christmas all such parcels must be mailed on or before November 20, 1918.

The Red Cross authorities have announced that the containers will be ready for distribution by local Chapters by the latter part of October.

## BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. 10c and 25c a box. All druggists.

These two famous family medi-

ments of the liver and bowels, but in  
some cases these are too deep-rooted to  
surrender quickly and then the  
Tablets, taken in conjunction with  
the liquid, do wonderful work. They  
are especially valuable in cleansing  
the bowels for those whose habits of  
constipation do not readily yield to  
the laxative properties of Nerv-

# NOTHING BUT PRAISE FOR AMERICAN FORCES ABROAD

(Associated Press Correspondence)  
LONDON, October 5.—"American soldiers seem to grow in the night so that each morning there are more of them than before," writes a British soldier in France to his relatives in England. "Americans are the topics of conversation everywhere," he continues. "The villages are full of them." Their automobile trucks are on the roads, and their columns of infantry are everywhere. We are beginning to know the songs they sing and the phrases they use.

"To many of us they were a complete mystery at first. We had heard of America only as a distant country. Then suddenly they were in France—tall, well-trained men with a genius for making friends and adapting themselves to new conditions. We watched them curiously at first, surprised to find how like they were to other men. Then, before we had quite recovered from the first pleasant surprise, they were fighting—making a reputation in a trade where the test is not easy. They came up from their villages singing, and filtered into the trenches, more and more of them each day. The papers began to talk about their fighting, but we thought 'Surely they cannot be doing much yet.' And then all at once we began to see it for ourselves, and we were of the opinion straightway that the papers had not grasped the wonder of the facts.

"They were so keen and so fresh, those first Americans. And every day others as keen and fresh are going up to the line, and every day their places are being taken in the villages by yet others. What would the Germans say if they really knew all this, one wonders.

"They are merry and light-hearted, but underneath they are taking this business very seriously, and some of their talk shows it. That's the way to take one's fighting, you know—neither too much in earnest—which is morbid—nor too much as a joke—which is foolish. The wise man is he who neither overrates himself nor under-rates danger. The Americans are wise men.

"The peasants like them; the old French mothers mother them. They have an instinct which gives them a realization of the homesickness which must sometimes come to these men. When years have gone by, and it is possible to see the war in perspective, it may be possible to give full value to what those women have done. Meanwhile, as I was saying, the Americans go on arriving and spreading all over France."

## KEEP CLOSE TAB ON HUN MOVEMENTS

(Associated Press Correspondence)  
With the American Armies in France, October 4.—In the "quiet sectors" where the American troops are getting the final touches to their training, the men are studiously schooled in noting the slightest, the most seemingly unimportant activity of the enemy.

Every artillery observer advanced sentinel and lookout, must report with exactitude and detail all that he sees on the other side of the line. The reports are collected, compared by the intelligence department of each division or unit and transferred to maps. The daily map is supplemented by the weekly map.

On the maps of one American division are two clearly defined lines showing exactly the position of the German and the American trenches. On the American side of the line the map, in the morning there will be pinned numerous little red circles, indicating the points shelled by the Germans during the day preceding. On the German side of the line are small black figures wearing spiked helmets indicating troop movements or crossed spades and picks showing where working parties have been seen.

Scarlet little airplanes likewise dot the map on both sides of the line, where enemy machines have been seen. They bear indications likewise to make clear at a glance what happened to the machines—whether they were driven off by anti-aircraft guns, whether they were attacked by all-

ed planes, and what they were doing, photographing, reconnaissance or bombing.

Other placards of cardboard show the movement of trains. The possession of such indications is of value to the artillery the next time there is movement behind the lines.

There are further insignia for indicating telephone work, digging and the score of other activities that go on behind any line. Several consecutive maps may, and frequently do, reveal continued German activity of certain kinds at given points that may be checked by the artillery or other other means.

## BIG JAP LINER IS SENT DOWN

(American Press)  
London, Oct. 11.—The Japanese steamship Hiranu Maru, of 7,935 tons gross, has been torpedoed and sunk. It is feared that 300 lives were lost. The Hiranu Maru was outward bound for Japan and carried about 200 passengers. The vessel was torpedoed and sunk by a German submarine early Friday morning, when about 300 miles south of Ireland. The few survivors who were picked up by the American torpedo boat destroyer Sterrett have been brought here. They declare that the torpedo struck the steamer in the forward engine room.

Nothing remained for those on board, including the women and children, but to plunge into the ocean. A large number, however, went down with the ship. The vessel disappeared completely within seven minutes after being struck by the torpedo.

The scene was indescribable. The weather was bad and rather hazy. The cries of the drowning were heartrending. Everybody had been supplied with life belts, but only the strongest were able to stand the buffeting waves and exposure. These were picked up by the destroyer Sterrett.

BUY LIBERTY BONDS NOW

Old Man Ohio is in the ring! fighting blood is up.

With your help, Old Man Ohio will hand out a couple of knock-out punches himself—while Ohio's boys are hammering the Huns "over there."

JOHN BARLEYCORN, who has put so many good men down, and FRITZ BARLEYCORN, the lager beer champion from Hunland, have a beating coming to them. And they're going to get it.

These booze Huns in the ring are of the SAME BREED as the Huns over there. They represent the liquor traffic in Ohio.

They don't fight fair. They are BIG BULLIES when things are going their way. They have no mercy.

Neither have they any courage. They begin to WHINE

as soon as they're hit. They can't stand the gaff. They beg for the fight to be stopped as soon as the fight goes against them—JUST LIKE THE HUNS OVER THERE.

The liquor traffic—seeing Ohio's sleeves rolled up—is whining and begging now.

The Booze Huns have been whipped in a number of preliminaries.

They fought to be allowed to sell booze to soldiers.

They fought for "PROFIT," no matter whether Uncle Sam won the war or not.

They fought to have saloons around army cantonments.

They fought AGAINST reducing the amount of FOOD-STUFFS consumed to make intoxicants.

They fought against every-

Old Man Ohio's

thing that interfered with their selfish and DESTRUCTIVE INTERESTS, regardless of the national crisis.

Their favorite blows have been BELOW THE BELT.

Now they're whining. They asked for postponement of the fight. They are trying to work the sympathy game on the people they used to bully.

Sympathy for the liquor traffic is like sympathy for the Huns. It would be repaid by a STAB IN THE BACK.

Now is the time to put the liquor traffic out for keeps. IT'S YOUR FIGHT—for the same principles the younger fellows are fighting for across the sea.

Do your bit—make it a DECISIVE knock-out for whisky and beer in Ohio.

## SEE INVASION OF HUN EMPIRE

(American Press)  
Washington, Oct. 11.—The smashing victory of the Anglo-American forces north of St. Quentin may be paving the way for early invasion of Germany.

Reports of a wholly new enterprise, directed at the upper Rhine valley, have come from France and Switzerland, and some officers here regard the reports as highly significant. They give them particular weight because it now appears certain that the enemy will be forced far back all along the front in northern France and Belgium within the next few days. While the constant hammering is kept up in the north to pin the German armies there, it might be possible, it was said, to deliver a new stroke on the Alsace-Lorraine front that might swiftly develop into an invasion of Germany itself by way of the Rhine valley.

The wholly unexpected extent of the German collapse between St. Quentin and Cambrai, however, may upset any plans for a drive to the Rhine. Marshal Foch may have planned. As the enemy stands, with a great gap torn in the center of the lines that were already struggling to extricate themselves and get back to a shorter front, there is even the possibility of a crushing and immediate military victory for the allies.

Should the French to the south or the British to the north also succeed in breaking through before the Germans can complete an extensive retirement, the capture or destruction of a whole army group might be realized. In the opinion of observers here the situation has almost limitless possibilities, and Marshal Foch is virtually certain to concentrate every ounce of power at his command in an effort to execute a final coup.

For this reason it does not appear likely that the Rhine drive plans, if there are such plans, will develop until the situation clears in the north. Should the German armies escape the triple trap between Verdun and the North sea, however, and establish a line on the Meuse front, many officers are confident that the center of attack will swing suddenly to a drive into Germany itself by the shortest route, the Rhine valley.

## PRISONERS HELD BY HUNS PERISH

(Associated Press Correspondence)  
The Hague, October 4.—Thousands of Russians and Finnish Red Guards imprisoned in a secret camp at Friedenort, near Königsberg, Germany, are living and dying amid terrible conditions, according to a neutral who has just arrived here after a long visit in Germany. Many of them, he said, are virtually naked, and the remainder are clad in rags. Deaths are common, and he predicted that with the coming of winter most of these still alive would perish from exposure.

Food conditions in West Prussia, this informant said, are by no means as good as in East Prussia, the home of the Junkers. Ample food was obtainable at fairly reasonable prices in the east, in consequence of which the population was comparatively cheerful. To this situation he ascribed the continued resistance of the Junkers to the desire for a quick peace, which, he stated, was growing rapidly in other parts of the country.

The wreckage caused by the Russian invasion of 1914 was still evident, according to the traveler, who found the streets of Gumbinnen in a ruined condition. Reconstruction of military works, however, was going forward steadily by the forced labor of many Russian and Italian prisoners, who were being worked on railways, bridges, barracks and fortifications.

A TRIBUTE TO OUR PASTOR  
Rev. George L. Hart

Our dear Pastor has gone from among us. No other can quite fill his place; He has passed through the valley of shadows, To look on our dear Savior's face.

He has joined the bright, beautiful angels. Among them his own loving son. When we think of our faithful pastor We know his work here was well done;

We will miss him, oh yes, we will miss him.

But wait our Lord's time on this shore; And we'll all join our loved one and pastor, Where we'll meet to part never more.

He was a kind and dutiful pastor, He was loved by all whom he met. We know he is happy with Jesus, Where promised reward he will get.
